

## ACHIEVE IMAGE ON THE SELLING FLOOR

As the manufacturer, Trion can deliver color fixtures that **enhance your branding**, store image, departmental theme, or color-coded navigation scheme at catalog prices or for very little extra cost. In this age of sophisticated retailing there is no reason to forego the added sales emphasis that color can provide. Major brands and retail chains project their image and a “**sense of place**” or “**destination**” with color. With direct-from-the-manufacturer Trion fixtures, you can too.

## CUSTOM OR MATCH COLORS

are highly-specific, higher-cost color goals. We can meet virtually any color, PMS, RAL, Munsen or other system requirement within commercially accepted standards. But different production techniques, materials and color systems may not allow totally exact reproduction. The closer the match required, the more difficult the goal and higher the cost. Custom and Match Colors may require specific sample or on-site customer color approvals. Please call for a quote on your needs.

### COLOR-PERM® CHARGES

Color-Perm® finishes are a colorful, baked-on epoxy powder coating comparable to plating in durability. Standard Colors are Black, White and Beige. Common Colors are Red, Grey, Blue, Green, Yellow and Silver. A wide range of Custom Colors are also available to complement or contrast your brand or store decor. Specialty variegated and marbled finishes are also available.

Charges shown are for Standard Colors and Common Colors where a 1,000 piece minimum applies. Charges should be added to the basic hook price when requesting Color-Perm® of a normally un-powdercoated hook (Be sure to add the correct per 1,000 price). For hooks already listed as powdercoated, no additional charge need be added to the catalog price for Standard Colors, and only the 1,000 piece minimum need be met for the item to be powdercoated in a Common Color. Custom Colors are available by special quote.

Code	Price per 100			Code	Price per 100
